

The Family Connection...It's Personal

At Carlton Plaza, taking care of your family is my passion and is an extremely personal experience. I became involved in caring for seniors because I learned, from first hand experience, the challenges of caring for a loved one. As primary care-giver for my mother, Carolyn, I was determined to develop a supportive senior community. That's when I committed to build a caring, family-based community to meet not only her needs, but also the needs of other seniors.

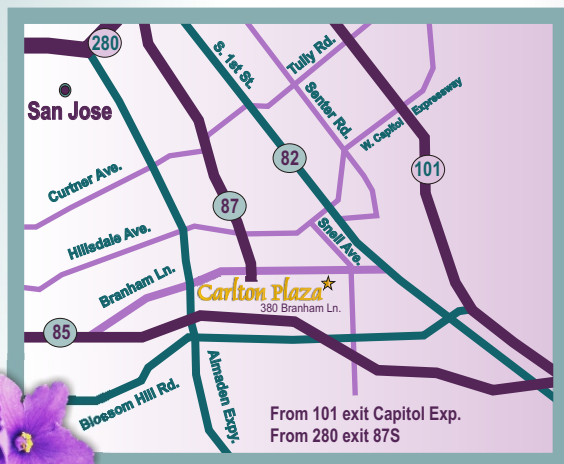

Our family... taking care of yours

My determination was paramount to the development of Carlton Plaza. I wanted to create an environment that allowed seniors to enjoy an active, quality lifestyle. In 1989, I had the good fortune to have my long-time personal friend, Dr. Donald Engle, join me as a partner. Dr. Engle provides professionalism and supports our ability to build communities that enrich the lives of seniors and their families. His years of development experience perfectly match our vision to create unique communities for seniors.

Respite Resort Stay At Carlton Plaza

Respite (rĕs' pĭt) n.,v.,
1. A short period of rest or relief
2. A temporary suspension

Webster's Dictionary

The Family Connection...It's Personal

It's Personal Choices

Alcoves, one bedroom or two bedroom accommodations are available in our independent and assisted living apartments. Our Memory Care community offers private and semi-private apartments. Once you make a selection, the move-in process is easy. We furnished the rooms in contemporary designs, lovely bedspreads and nice appointments. Simply bring your personal belongings.

It's Personal Decisions

The Respite Resort Stay Program is a solution for seniors and families that provides a short term stay in an elegant independent, assisted living or memory care community. You receive all of the benefits of a senior community, just for a shorter time period.

It's Personal Care

Personal care is included in the daily rate. If you need full personal care or occasional assistance, our staff is available to help. Whether it is medication management, assistance with dressing or transportation, we take care of everything. Prior to moving in, a trained professional will meet with you to discover your needs, design a care plan and have everything waiting for you.

It's Personal Timing

When staying at home is not the answer, consider a Respite Resort Stay. Respite Resort Stays are perfect to support a recovery after hospitalization, allow for a worry free family vacation, or give a much needed rest to a care giver.

Visit Carlton Plaza and discover how personal attention to care and activities contributes to living well for seniors and their families.

*It's simple. Everything you need is right here.
Lovely accommodations. Personal Care. Support Services.
Right when you need it.*
